

# JDN PRODUCT INFO No. 4

10/2009

## The new improved JDN Mini Pendant!

We are proud to introduce the new Mini pendant to our product offerings. This pendant is available immediately for the entire Mini line and replaces the current JDN controls.

We have taken on board the feedback from our valued Distributors and end users, to make a much more ergonomic, robust pendant whilst enhancing the superior speed & performance of the Mini.

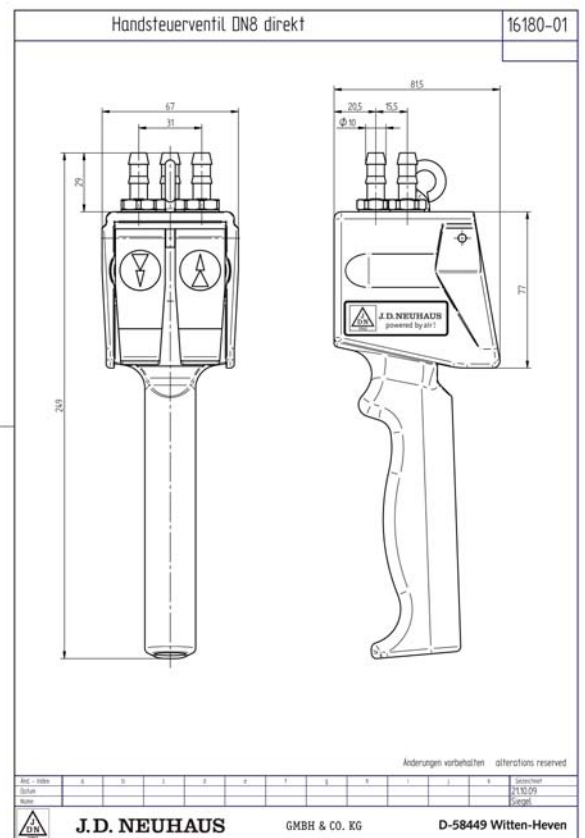

### Key features of the new design include:

- Pistol grip design with contoured handle
- Lightweight for improved ergonomics
- Optimum and infinitely variable lifting and lowering speeds
- Precise load spotting capabilities
- Corrosion resistant

This will become the standard pendant offering for our Minis. Please see the accompanying photographs and the drawing. We hope that you and your customers will share our enthusiasm for the new hand valve!

**Please feel free to circulate this to your customers & share with us the feedback you receive as this is introduced into the marketplace.**
